For much of this century, the National Park Service led Federal efforts to preserve the country's important cultural resources. Now, in continuation of this stewardship, we are expanding our technical and educational assistance to ever-broadening audiences. This catalog is the combined effort of all of our cultural resources programs to share with you the most up-to-date guidance, preservation technology, and research results. Although this list of books, slide-tape shows, and data bases is by no means comprehensive, it represents an excellent cross-section of currently available historic preservation materials produced by the National Park Service.

By bringing you this third edition of the Cultural Resources Programs catalog, the Service is pleased to demonstrate its commitment to strengthen America's preservation network where it counts most—where the work is actually done. Let us hear how we may continue to serve you and your community.

The National Park Service's Cultural Resources Programs—administered in ten NPS Regions across the United States and in the Washington Office—provide a variety of historic preservation services for the States and Territories, Federal agencies, and the general public. In addition to setting Standards for all aspects of preservation, from research and documentation to repair work, the Cultural Programs publish and distribute technical information. Our books, handbooks, technical leaflets, microfiche, microfilm, slide/tape shows and data bases are available through sales from several outlets, including the U. S. Government Printing Office, National Technical Information Service, American Association for State and Local History, the National Trust for Historic Preservation, and several university presses.

Technical information is also provided in our periodical *CRM*, produced by the Cultural Resources Programs for parks, Federal agencies, states, local governments, and the private sector. Feature articles and timely new items cover a variety of cultural resources management and historic preservation topics.

Finally, it should be noted that due to space limitations and constantly expanding stock, this Catalog is not a comprehensive listing of National Park Service publications. If you are searching for a specific publication, please call or write us for further information. Addresses for the NPS Regional Offices appear following the publications list. For your convenience, the Superintendent of Documents, Government Printing Office (GPO) and U. S. Department of Commerce, National Technical Information Service (NTIS) tear-out order forms comprise the last two pages of the book.

Preservation Assistance conducts a variety of activities to guide Federal agencies, States, the Service, and the general public in historic preservation project work. This program:

- establishes Standards and Guidelines
- develops, publishes, and distributes technical preservation information
- provides training on appropriate preservation approaches and treatments
- administers the Preservation Tax Incentives program
- monitors the status of National Historic Landmarks & coordinates technical assistance
- manages the Historic Preservation Fund grants-in-aid program
- conducts research to help quantify the effects of acid rain on cultural resources
- implements the Skills Development Plan for historical architects in the National Park Service

Program/Training Information

Program information includes historic preservation laws, standards, and a plan for developing historic preservation skills.

Federal Historic Preservation Laws. Sara K. Blumenthal, compiler. Lists the major historic preservation laws that govern a national program to coordinate and support public and private efforts to identify, evaluate, and protect our historic and archeological resources. This popular book is a ready reference for preservationists in all levels of government, the private sector, and academia. 59 pages. 1990. *GPO stock number: 024-004-01059-0. $2.00 per copy.*

The Secretary of the Interior's Standards for Rehabilitation with Guidelines for Rehabilitating Historic Buildings. Unillustrated version. The Standards are used in the Preservation Tax Incentives program to determine whether the historic character of a building is preserved in the process of rehabilitation. Accompanying guidelines assist in applying the Standards. 59 pages. *GPO stock number: 024-005-01061-1. $2.00 per copy.*

U. S. Department of Commerce
National Technical Information Service

Skills Development Plan for Historical Architects in the National Park Service. Hugh C. Miller, FAIA, Lee H. Nelson, FAIA, and Emogene A. Bevitt. Identifies some 120 skills needed to work on historic structures. In addition to historical architects, preservationists are also encouraged to participate in the self-paced training course with the goal of studying a topic, writing about it, and then sharing information with an audience of peers. Selected bibliography. 96 pages. *NTIS order number: PB88-192265. $19.00 paper; $8.00 microfiche.*

Preservation Briefs

Preservation Briefs assist owners and developers of historic buildings in recognizing and resolving common preservation and repair problems prior to work. The briefs are especially useful to preservation tax incentive program applicants because they recommend those methods and approaches for rehabilitating historic buildings that are consistent with their historic character.

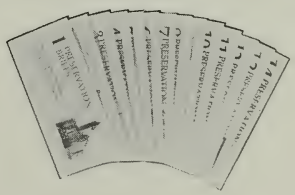
Historic Buildings Preservation Briefs #1-14 (set). The "Classic" package now, many of the issues and topics parallel the early history of the NPS preservation program. Briefs 1-14 can only be purchased in this set. Popular for classrooms, rehabilitation workshops, and preservation conferences. *GPO stock number: 024-005-01026-2. $9.00.*



Preservation Briefs 1: The Cleaning and Waterproof Coating of Masonry Buildings. Robert C. Mack, AIA. Provides guidance on the techniques of cleaning and waterproofing and explains the consequences of their inappropriate use. 4 pages. 5 illustrations. 1975.

Preservation Briefs 2: Repointing Mortar Joints in Historic Brick Buildings. Robert C. Mack, AIA, de Teel Paterson Tiller, and James S. Askins. Provides information on appropriate materials and methods for repointing historic brick buildings. 8 pages. 12 illustrations. Rev., 1980.

Preservation Briefs 3: Conserving Energy in Historic Buildings. Baird M. Smith, AIA. Provides information on materials and techniques to consider or avoid when undertaking weatherization and energy conservation measures in historic buildings. 8 pages. 8 illustrations. 1978.

Preservation Briefs 4: Roofing for Historic Buildings. Provides a brief historic of the most commonly used roofing materials in America. Presents a sound preservation approach to roof repair, roof replacement, and the use of alternative roofing materials. 1978.

Preservation Briefs 5: The Preservation of Historic Adobe Buildings. Provides information on the traditional materials and construction of adobe buildings, and the causes of adobe deterioration. Makes recommendations for preserving historic adobe buildings. 8 pages. 15 illustrations. 1978.

Preservation Briefs 6: Dangers of Abrasive Cleaning to Historic Buildings. Anne E. Grimmer. Cautions against the use of sandblasting to clean various buildings and suggests measures to mitigate the effects of improper cleaning. Explains the limited circumstances under which abrasive cleaning may be appropriate. 8 pages. 10 illustrations. 1979.

Preservation Briefs 7: The Preservation of Historic Glazed Architectural Terra-Cotta. de Teel Patterson Tiller. Discusses deterioration problems that commonly occur with terra-cotta and provides methods for determining the extent of such deterioration. Makes recommendations for maintenance and repair, and suggests appropriate replacement materials. 8 pages. 11 illustrations. 1979.

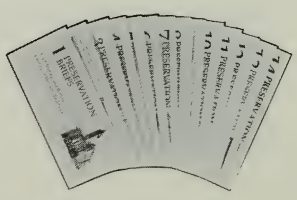
Preservation Briefs 8: Aluminum and Vinyl Siding on Historic Buildings: The Appropriateness of Substitute Materials for Resurfacing Historic Wood Frame Buildings. John H. Myers, revised by Gary L. Hume. Discusses the appearance of various types of historic wood siding and makes recommendations for repair and replacement. Outlines the very limited instances under which substitute siding may be an acceptable alternative. 7 pages. 5 illustrations. Rev., 1984.

Preservation Briefs 9: The Repair of Historic Wooden Windows. John H. Myers. Provides useful information on evaluating and repairing historic wooden windows found in typical rehabilitation projects. Emphasizes practical methods for homeowners or developers. 8 pages. 10 illustrations. 1981.

Preservation Briefs 10. Exterior Paint Problems on Historic Woodwork. Kay D. Weeks and David W. Look, AIA. Identifies and describes common types of paint surface conditions and failures. Provides guidance on preparing historic woodwork for repainting, including limited and total paint removal. 12 pages. 14 illustrations. 1982.

Preservation Briefs 11. Rehabilitating Historic Storefronts. H. Ward Jandl. Explores the role of the storefront in historic buildings and provides guidance on rehabilitation techniques for historic storefronts as well as compatible new storefront designs. 12 pages. 12 illustrations. 1982.

Preservation Briefs 12. The Preservation of Historic Pigmented Structural Glass (Vitrolite and Carrara Glass). Provides information on the early manufacture, installation, and use of this decorative building product commonly found in 20th century buildings; reasons for its damage; and a general approach for its maintenance, repair, and replacement. 8 pages. 16 illustrations. 1984.



Preservation Briefs 13. The Repair and Thermal Upgrading of Historic Steel Windows. Sharon C. Park, AIA. Presents brief historical background on the development, use, and styles of rolled steel windows popular in the first half of the 20th century. Explains steps for cleaning and repairing damaged steel windows; also provides information on appropriate methods of weatherstripping and options for storm panels or the installation of thermal glass. 12 pages. 10 illustrations. 1984.

Preservation Briefs 14: New Exterior Additions to Historic Buildings: Preservation Concerns. Kay D. Weeks. Uses a series of examples to suggest ways that attached new additions can successfully serve contemporary uses as part of a rehabilitation project while preserving significant historic materials and features and the building's historic character. 12 pages. 30 illustrations. 1986.

◆ **Historic Buildings Preservation Briefs #15-23 (set).** By popular demand, a second packaging of the Preservation Briefs. Titles below. *GPO stock number: 024-005-01085-8. $5.00.*

Note: Preservation Briefs 15 - 23 and Briefs 24, 25, 26, 27, and 28 are available in single issue from GPO for $1.00 each.

Preservation Briefs 15: Preservation of Historic Concrete: Problems and General Approaches. William B. Coney, AIA. Focus on reinforced concrete (cast-in-place or reinforced), useful for anyone undertaking repair or limited replacement. The guidance addresses the causes of concrete deterioration, the signs of deterioration, and actual concrete repair. 12 pages. 27 illustrations. 1987. *GPO stock number: 024-005-01027-1. $1.00 per copy.*

Preservation Briefs 16: The Use of Substitute Materials on Historic Building Exteriors. Sharon C. Park, AIA. Includes a discussion of when to use substitute materials, cautions regarding their expected performance,and descriptions of several substitute materials together with advantages and disadvantages. Summary charts included. 16 pages. 34 illustrations. 1988. *GPO stock number: 024-005-01037-8. $1.00 per copy.*

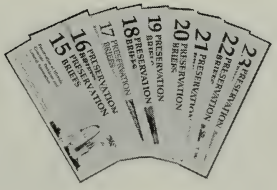
Preservation Briefs 17: Architectural Character - Identifying the Visual Aspects of Historic Buildings as an Aid to Preserving Their Character. Lee H. Nelson, FAIA. Essential guidance to help property owners and architects identify those features of historic buildings that give the building its visual character so that their preservation can be maximized in rehabilitation. 12 pages. 27 illustrations. 1988. *GPO stock number: 024-005-01039-4. $1.00 per copy.*

Preservation Briefs 18: Rehabilitating Interiors in Historic Buildings - Identifying Character-Defining Elements. H. Ward Jandl. Assists building owners in identifying significant interior spaces, features, and finishes so they may be preserved in rehabilitation work. The guidance applies to all building types and styles, from 18th century churches to 20th century office buildings. 8 pages. 11 illustrations. 1988. *GPO stock number: 024-005-01041-6. $1.00 per copy.*

Preservation Briefs 19: The Repair and Replacement of Historic Wooden Shingle Roofs. Sharon C. Park, AIA. Discusses historic wooden roofing, expectations for longevity, and repair and replacement options. Identifies roofing material that duplicates the appearance of a historic roof, offers guidance on proper installation, and provides information on coatings and maintenance procedures to help preserve the new roof. 12 pages. 16 illustrations. 1989. *GPO stock number: 024-005-01053-0. $1.00 per copy.*

Preservation Briefs 20: The Preservation of Historic Barns. Michael J. Auer. Identifies historic barn types, helps owners understand the historic character of their barns, and offers advice on the maintenance, repair, and rehabilitation of old and historic barns. 12 pages. 30 illustrations. 1989. *GPO stock number: 024-005-01054-8. $1.00 per copy.*

Preservation Briefs 21: Repairing Historic Flat Plaster—Walls and Ceilings. Marylee MacDonald. Guides building owners on repairing historic plaster using traditional materials (wet plaster) and techniques. Suggests replacement options if the historic plaster is severely deteriorated. Useful chart on various plaster bases and compatible basecoats and finish coats. 14 pages. 17 illustrations. 1989. *GPO stock number: 024-005-01055-6. $1.00 per copy.*



Preservation Briefs 22: The Preservation and Repair of Historic Stucco. Anne E. Grimmer. Describes the evolution of stucco as a popular building material, beginning with a brief history of how stucco is applied, and how its composition, texture, and surface patterns have changed. Includes guidelines for the historic property owner or manager on how to plan for and carry out repair of historic stucco, with sample mixes for 18th, 19th, and 20th century stucco types. 12 pages. 33 illustrations. 1990. *GPO stock number: 024-005-01066-1. $1.00 per copy.*

Preservation Briefs 23: Preserving Historic Ornamental Plaster. David Flaharty. Discusses ornamental plaster production, explaining the processes of run-in-place and cast ornamentation using three common decorative forms as examples: the cornice, ceiling medallion, and coffered ceiling. Guidance will help an owner identify deterioration causes and better understand complex restoration techniques. Useful advice on selecting and evaluating a restoration contractor is included. 12 pages. 34 illustrations. 1990. *GPO stock number: 024-005-01067-0. $1.00 per copy.*

- **Preservation Briefs 24: Heating, Ventilating, and Cooling Historic Buildings: Problems and Recommended Approaches.** Sharon C. Park, AIA. Underscores the importance of careful planning in order to balance preservation objectives with the interior climate needs of the building. Useful charts included. 14 pages. 28 illustrations. 1991. *GPO stock number: 024-005-01090-4. $1.00 per copy.*

- **Preservation Briefs 25: The Preservation of Historic Signs.** Michael J. Auer. Discusses the history of sign types pre-1800 to the 20th century, including symbol signs, flat signs, fascia signs, hanging signs, goldleaf signs, rooftop signs, and neon signs. Makes recommendations for their repair and re-use. 12 pages. 29 illustrations. 1991. *GPO stock number: 024-005-01086-6. $1.00 per copy*

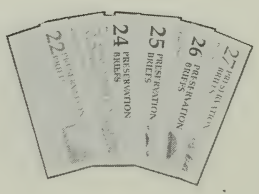
- **Preservation Briefs 26: The Preservation and Repair of Historic Log Buildings.** Focuses on horizontally laid or vertically positioned logs, but the preservation and repair treatments are essentially the same for all log structures. Treatments discussed included traditional splicing-in techniques, the use of epoxies, and replacement, as well as guidance on the repair and replacement of chinking and daubing. 16 pages. 32 illustrations. 1991. *GPO stock number: 024-005-01087-4. $1.00 per copy.*

- **Preservation Briefs 27: The Maintenance and Repair of Architectural Cast Iron.** John G. Waite; historical overview by Margot Gayle. Discusses the role of cast iron in the industrial development of our country during the 19th century and the resulting advances in building design and technology and ornamental detailing. Provides essential guidance on maintaining and repairing architectural cast iron within rehabilitation projects. 12 pages. 30 illustrations. *GPO stock number: 024-005-01088-2. $1.00 per copy.*

- **Preservation Briefs 28: Painting Historic Interiors.** Sara B. Chase. Discusses wall paint and decorative surface treatments from the late 17th century to the 1950s. Describes the usefulness of a complete paint investigation for preservation and restoration projects. Provides guidance on the common causes of interior paint failure and preparing surfaces for repainting. Makes recommendations about new paint with health and safety factors in mind. 16 pages. 22 illustrations. 1992. *GPO stock number: 024-005-01089-1. $1.00 per copy.*

Technical Reports

Technical Reports address in detail problems confronted by architects, engineers, government officials, and other technicians involved in the preservation of historic buildings.



Superintendent of Documents
Government Printing Office

Keeping it Clean: Removing Dirt, Paint, Stains, and Graffiti from Historic Exterior Masonry. Anne E. Grimmer. Covers virtually every aspect of a cleaning project—identifying building materials to be cleaned and ones that might be affected by cleaning; scheduling cleaning around other work; what to ask for in cleaning "specs;" and what kind of test cleaning procedures to use. Useful chart summarizes cleaners and removal techniques. 45 pages. 35 illustrations. 1987. Bibliography. *GPO stock number: 024-005-01035-1. $2.50 per copy.*

Moisture Problems in Historic Masonry Walls: Diagnosis and Treatment. Baird M. Smith, AIA. Intended for architects, building owners, property managers, and others responsible for the care and maintenance of historic buildings. Discusses problems caused by excessive moisture in historic masonry walls and outlines a methodology for diagnosing such problems and selecting appropriate treatments. 48 pages. 32 illustrations. 1984. *GPO stock number: 024-005-00872-1. $2.25 per copy.*

U.S. Department of Commerce
National Technical Information Service

Access to Historic Buildings for the Disabled: Suggestions for Planning and Implementation. Charles Parrott. Describes methods to achieve barrier-free access to historic buildings that conform with the Department of the Interior's historic preservation standards. Addresses a variety of specific needs for the disabled people, including ramps, vertical wheelchair lifts, curb cuts, railings, restrooms, miscellaneous fixtures, and signage. Also examines techniques to make programs and services housed in historic buildings accessible in lieu of architectural changes. 92 pages. 42 illustrations. 1980. *NTIS order number: PB85-180826. $19.00 paper; $9.00 microfiche.*

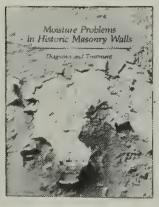
A Glossary of Historic Masonry Deterioration Problems and Preservation Treatments. Anne E. Grimmer. Generously illustrated, provides information on 22 common masonry deterioration problems and their known treatment. Intended for use both as a general reference tool and an on-site interpretive guide in the maintenance and preservation of historic structures. 68 pages. 41 illustrations. 1984. *NTIS order number: PB92-147172. $19.00 paper; $9.00 microfiche.*

Cyclical Maintenance for Historic Buildings. J. Henry Chambers, AIA. Provides a step-by-step process for building managers, architects, and others involved in the routine maintenance of historic properties. 125 pages. 1976. *NTIS order number: PB87-118659. $25.00 paper; $12.50 microfiche.*

Epoxies for Wood Repairs in Historic Buildings. Morgan W. Phillips and Dr. Judith E. Selwyn. Presents research findings on the use of epoxies to preserve historic wood features rather than replacing them. Discusses low-viscosity epoxy consolidants that can be soaked into rotted wood in order to restore its solidity; and epoxy pastes for filling holes and cracks in historic woodwork. Includes useful case-study applications, suggested formulations, and lists of suppliers. 72 pages. 43 illustrations. Appendix. 1978. *NTIS order number: PB85-180834. $19.00 paper; $9.00 microfiche.*

Photogrammetric Recording of Cultural Resources. Perry E. Borchers. Describes the basic principles of photogrammetry and their application to the recording of cultural resources. Includes several case study applications. 38 pages. 27 illustrations. 1977. *NTIS order number: PB85-180792. $17.00 paper; $9.00 microfiche.*

Rectified Photography and Photo Drawings for Historic Preservation. J. Henry Chambers, AIA. Explains the process of making photographic negatives of a predetermined size or scale which can be enlarged to a convenient architectural scale, then printed on photo-sensitive drafting film for working drawings, surveys, and feasibility studies. 38 pages. 13 illustrations. 1973. *NTIS order number: PB85-180768. $17.00 paper; $9.00 microfiche.*



Using Photogrammetry to Monitor Materials Deterioration and Structural Problems on Historic Buildings: Dorchester Heights Monument, A Case Study. J. Henry Chambers, AIA. Details the cost-effectiveness of close-range photogrammetry in monitoring the condition of historic masonry structures, particularly when more conventional methods of inspection are impracticable. 16 pages. 6 illustrations. Bibliography. 1985. *NTIS order number: PB87-232146. $17.00 paper; $9.00 microfiche.*

X-Ray Examination of Historic Structures. David M. Hart. Explains a method for nondestructive probing of historic buildings that permits investigation of components normally hidden from view. Intended for architects, conservators, and other professionals. 24 pages. 19 illustrations. 1975. *NTIS order number: PB85-180800. $17.00 paper; $9.00 microfiche.*

Other Technical Report Sales

Gaslighting in America: A Guide to Historic Preservation. Denys Peter Myers. Surveys the types and style of gas fixtures that appeared in the rooms and on the streets of 19th and early 20th century America. Originally published by the National Park Service in 1978, re-issued by Dover Publications, 1990. *$16.95. Write Dover Publications, 31 East Second St., Mineola, New York 11051 for specific ordering information.*

Moving Historic Buildings. John Obed Curtis. Discusses the limited circumstances under which a historic masonry or frame building should be moved. Establishes a methodology for planning, research, and recording prior to the move; and addresses the siting, foundation construction, building reassembly, and restoration work after a successful move has taken place. 50 pages. 47 illustrations. Selected bibliography. 1975. Reprinted 1991 by W. Patram for the International Association of Structural Movers. *$2.50 each + $1.50 postage for one copy; add $.75 postage for ea. additional copy. Preservation Case Studies

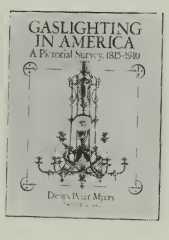
Preservation Case Studies provide practical solution-oriented information for developers, planners, and owners by presenting and illustrating a specific course of action taken to preserve one building or an entire block of buildings. Individual case studies may highlight an innovative rehabilitation technique, financing strategies, or an overall planning methodology.

U. S. Department of Commerce
National Technical Information Service

Abbeville, South Carolina: Rehabilitation Planning and Project Work the Commercial Town Square. John M. Bryan and the Triad Architectural Associates. Excellent planning guide for historic building owners interested in rehabilitating an entire block or more of exterior facades to enhance local commercial trade. Uses a series of architectural drawings and sketches, recommends preservation work for each building inventoried as well as the urban setting. 55 pages. 24 illustrations. 1979. *NTIS order number: PB85-194512. $19.00 paper; $9.00 microfiche.*

Fort Johnson, Amsterdam, New York: A Historic Structure Report. Mendel-Mesick-Cohen. From an onsite inspection conducted in 1974-1975, shows steps to take prior to undertaking preservation or restoration work on a historic building. Documents the current state of the building's exterior and interior materials and overall structural stability. Recommends work that meets the Department of Interior's historic preservation standards. Archeological report included. 54 pages. 89 illustrations. Appendices. 1978. *NTIS order number: PB87-117545. $19.00 paper; $9.00 microfiche.*

Main Street Historic District, Van Buren, Arkansas: Storefront Rehabilitation/Restoration Within a Districtwide Plan. Susan Guthrie. Illustrates in detail how storefronts in a small town's commercial center were successfully rehabilitated. Emphasizes both planning and rehabilitation by inclusion of working drawings, and before, during and after photographs. 31 pages. 30 illustrations. 1980. *NTIS order number: PB85-194496. $17.00 paper; $9.00 microfiche.*



Maymont Park - The Italian Garden, Richmond, Virginia: Landscape Restoration. Barry W. Starke, ASLA. Outlines step-by-step process of conducting historical research on a National Register-listed park, preparing existing conditions documentation, and recommending project work. Includes the landscape architect's drawings and specifications to restore stone walls, garden walkways, and domed pergola according to Department of the Interior historic preservation standards. 39 pages. 29 illustrations. 1980. *NTIS order number: PB85-194538. $17.00 paper; $9.00 microfiche.*

Planning for exterior Work on the First Parish Church, Portland, Maine, Using Photographs as Project Documentation. John C. Hecker, AIA, and Sylvanus W. Doughty. Using annotated photographs detailing physical damage and deterioration of a specific church building, shows how project work recommendations were made. Useful methodology for owners and developers planning rehabilitation work on any building. Includes architectural specifications for several work areas, such as site improvements, mortar, brick masonry, rough carpentry, slate roofing, dampproofing, flashing, and painting. 58 pages. 15 illustrations. Secretary of the Interior's Standards as Appendix. 1979. *NTIS order number: PB85-194250. $19.00 paper; $9.00 microfiche.*

Olmsted Park System, Jamaica Pond Boathouse, Jamaica Plain, Massachusetts: Planning for the Preservation of the Boathouse Roof. Richard White. Focuses on planning the preservation of a specific public park building, but useful for planning an entire project to meet Department of Interior historic preservation standards. Presents a responsible process of documenting proposed work, including a brief history of the site and building, evaluation of deterioration, architectural drawings, and a summary of successful completed work. 58 pages. 25 illustrations. Appendix. 1979. *NTIS order number: PB85194504. $19.00 paper; $9.00 microfiche.*

Rehabilitating Historic Hotels: Peabody Hotel, Memphis, Tennessee. Floy A. Brown. Explains use of the preservation tax credit to rehabilitate an important downtown hotel. Outlines the success of other hotel rehabilitations across the United States, then focuses on the Peabody Hotel in Memphis. The case study describes the Peabody's architectural importance, the scope of rehabilitation work, and the funding initiative. 44 pages. 21 illustrations. Appendix. 1979. *NTIS order number: PB90-21125. $17.00 paper; $9.00 microfiche.*

The Morse-Libby Mansion: A Report on Restoration Work, 1973-1977. Morgan W. Phillips. Describes and illustrates preservation methods and techniques used in the exterior restoration of an Italianate mansion. 55 pages. 84 illustrations. Appendices. 1977. *NTIS order number: PB85-180776. $19.00 paper; $9.00 microfiche.*

Preservation Tech Notes

Preservation Tech Notes provide innovative solutions to specific problems in preserving cultural resources—buildings, structures, and objects. Tech Notes are intended for practitioners in the preservation field, including architects, contractors, and maintenance personnel, as well as for owners and developers seeking the preservation tax investment credit for rehabilitation.

Curatorial Services develops and coordinates Service-wide policies, standards, and procedures for the management of National Park Service museum collections, including natural and cultural materials. This program:

- coordinates development of new and revised policy and guidance documents (e.g., NPS Museum Handbook) on the acquisition, documentation, cataloging, conservation, storage, use, and disposition of museum objects.
- coordinates and implements the Automated National Catalog System (ANCS) and maintains the centralized records of the National Catalog
- develops and conducts appropriate curatorial training programs
- coordinates production of Collection Management Plans
- produces the technical information series Conserve O Grams
- provides parks and centers with technical assistance on the storage and maintenance of museum collections
- maintains product information on curatorial supplies and equipment and coordinates program to facilitate purchases and loans of equipment to Parks
- operates the NPS Clearinghouse to assist parks in disposing of museum objects

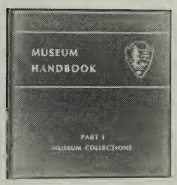
NPS Automated National Catalog System

The NPS Automated National Catalog System (ANCS), a microcomputer-based database management system, is designed to accession and catalog the Service's cultural and natural history museum collections that number over 25,000,000 objects and specimens. ANCS is a Clipper-compiled program that uses a dBase/Clipper source code. It has the capability for networking and centralization of records at regional and national levels. This user friendly system validates discipline specific and collection management data, produces a variety of standard reports, and can readily respond to ad hoc queries. The classification system is applicable to cultural objects and natural history specimens from throughout the United States. *Availability: The ANCS program disks and accompanying User Manual are available for $25. For further information on how to order write: Curatorial Services Division, National Park Service, ATTN: Museum Registrar, P.O. Box 37127, Washington, D. C. 20013-7127. Or telephone: (202) 343-8140.*



Conserve O Gram Series
Available by Subscription from GPO, Fall 1992

National Park Service *Conserve O Grams* are brief, technical leaflets distributed periodically to provide park museum staff with up-to-date, detailed instruction on museum collection preservation required in everyday curatorial work. **Conserve O Grams** are designed for both experienced and inexperienced staff responsible for the care of museum collections. They appear in loose-leaf format, with new topics added as needed and out-of-date issues revised or deleted.

- Specific procedures, techniques and materials for storage and exhibit of objects/specimens, and ongoing preventive conservation, including housekeeping.
- Health and safety updates, including material hazard information, changes in safety standards, recommendations on procedures, product use, or protective gear.
- Information about the characteristics of specific object/specimen materials or advanced laboratory treatments to assist park staff in recognizing deterioration, evaluating and describing object condition, or reviewing treatments proposed by profesional conservators
- Information on new practices in the museum field that supplements or revises generally accepted museum collection practice.
- Sources of assistance, including bibliographies.

The Conserve O Gram series is currently under revision for re-issue in Fall, 1992. The revised series will be available to interested organizations and individuals by subscription through the Superintendent of Documents, Government Printing Office. *To place your name and address on a mailing list to receive announcements concerning availability of the series, write to: NPS, Conserve O Grams, Curatorial Services Division, National Park Service, Harpers Ferry, West Virginia 25425.*

Forthcoming Curatorial Services Publications

The **NPS *Museum Handbook*, Part II, Museum Records.** Rev., 1992. The Archeological Assistance Program/Departmental Consulting Archeologist (AAP/DCA) provides Federal, State, and local agencies, Indian Tribes and others with technical assistance on the identification, evaluation, and preservation of archeologicad properties, co,lections, reports, and recgrds. Activities include limited technical assistance on specific projects for the recovery of important archeological and historical data threatened with damage or destruction by Federal undertakings. The program, which is located in Washington, D.C. and five NPS regional offices, develops regulations, other policy documdnts, technical information, and training and provides coordination for the Federal Archeology program. Staff in the regional offices implement national policy through liaison with field offices of other public agencies and organizations.

The AAP/DCA undertakes meetings, activities, and programs to coordinate Federal archeological activities and provides training for public agencies and other organizations. The AAP/DCA maintains the National Archeological Database (NADB), the Listing of Education in Archeological Programs (LEAP), and LOOT, which is a clearinghouse of information on prosecutions of looted and vandalized archeological resources on public land.

The AAP/DCA has a publication program that includes the Secretary of the Interior's Report to Congress on Federal Archeology, a quarterly newsletter entitled *Federal Archeology Report*; a series of **Technical Briefs**, and the *Archeological Assistance Study Series*. The AAP/DCA also distributes copies of Federal statutes, regulations, and guidelines that pertain to Federal archeology.

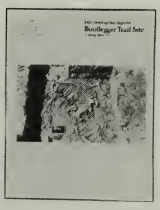
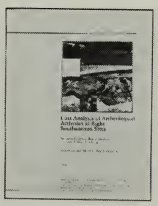
The Antiquities Act of 1906. Ronald F. Lee. Prepared to complete the administrative history of this cornerstone of the National Park System. The study describes and explains early participation by the U. S. Government in some aspects of historic preservation in America. It is a key document for all preservation libraries. *NTIS order number: PB88-200837. $26.00 paper; $9.00 microfiche.*

The Archeological Survey: Methods and Uses. Thomas F. King. Guidance for non-archeologists to better understand the nature of archeological resources. Of particular value is the excellent description of how the archeological record has become known in many areas of the United States through survey efforts. 134 pages. 18 illustrations. Appendices. Tables. 1978. *NTIS order number: PB284061. $26.00 paper; $9.00 microfiche.*





The Curation and Management of Archeological Collections: A Pilot Study. Bennie C. Keel, ed. Study resulting from a growing awareness that archeological collections were not being adequately maintained and, in consequence, their value for future research and educational purposes was being lost. 139 pages. Bibliographies. 1980. *NTIS order number: PB81-169880. $26.00 paper; $9.00 microfiche.*

The Importance of Small, Surface, and Disturbed Sites as Sources of Significant Archeological Data. Valerie Talmadge and Olga Chester. Small, surface, or disturbed sites are commonly thought by the public to be of little value for producing important archeological information. This excellent report seeks to dispell that notion, describing what some of these important data area and to offer examples of how they have been discovered, studied, and utilized by archeologists. 35 pages. Appendix. 1977. *NTIS order number: PB270939. $17.00 paper; $9.00 microfiche.*

The **Anthropology** Program is responsible for developing service-wide archeological and ethnographic program policies, guidelines, and standards; and for monitoring program operations in the Service's field offices and parks. The archeological function is concerned with preservation, protection, and visitor use activities related to the archeological aspects of the cultural resources found in the National Park System. The ethnographic function is concerned with natural and cultural resources that, while incorporated into national park areas, are traditionally associated with and significantly related to the lifeways of contemporary Native American and other ethnic communities. A principal goal is to develop effective partnerships with these ethnic communities to promote appropriate conservation practices.

Publications on Remote Sensing for Archeological Resource Management

Remote sensing—the detection, recognition, or evaluation of objects by means of distant recording devices—is a most useful, non-destructive approach for archeologists, cultural resource managers, and land managers who are confronted with the task of inventorying and determining what cultural resources are present. Sponsored by the U. S. Department of the Interior, National Park Service, Cultural Resources Management Protection Program, the following publications describe a variety of theories, techniques, and applications of remote sensing in archeology:

Archeological Exploration, Survey, and Analysis. Thomas R. Lyons, ed. 186 pages. 38 illustrations. 1977. *NTIS order number: PB88-210702. $26.00 paper; $9.00 microfiche.*

Cultural Resources Remote Sensing. Thomas R. Lyons and Frances Joan Mathien, eds. 390 pages. 80 illustrations. 1980. *NTIS order number: PB88-200852. $43.00 paper; $19.00 microfiche.*

Remote Sensing, A Handbook for Archeologists and Cultural Resource Managers. Thomas R. Lyons and Thomas Eugene Avery. 109 pages. 62 illustrations. 1977. *NTIS order number: PB88-201686. $26.00 paper; $9.00 microfiche.*

Remote Sensing and Non-Destructive Archeology. Thomas R. Lyons and James I. Ebert, Eds. 78 pages. 8 illustrations. 1978. *NTIS order number: PB84-186139. $19.00 paper; $9.00 microfiche.*

Remote Sensing: Supplements No. 1 to 10 to *Remote Sensing, A Handbook for Archeologists and Cultural Resource Managers.* Series Editor: Thomas R. Lyons. Set of ten publications on remote sensing, including: instrumentation for nondestructive exploration of cultural resources; multispectral analyses of cultural resources; aerial and terrestrial photography for archeologists; and photogrammetry in archeology—the Chaco mapping project. 487 pages. 38 illustrations. Bibliographies. 1977-1985. *NTIS order number: PB88-201694. $50.00 paper; $19.00 microfiche.*
